MPV #5 MPV #26

I just had a really exciting adventure. Last week, I visited Penghu and **kayaked** for the first time. I got to see many of the smaller **islands** of Penghu. It was great.

Before going out in my **kayak**, I made sure I had all my equipment. Three things I wanted to have with me were a **GPS**, a **compass** and a map. These would help me find out where to go on the water. When I was sure I had everything I needed, I was off!

I visited about three or four islands on my trip. They were all really interesting. The last island I visited was Kupo Island. This is where I **rested** for the night. I set up my **tent** on the beach and went to sleep.

My kayaking adventure was a lot of fun. It's something that I won't forget anytime soon.
