Have you ever really seen the dynamic formation performed by the temple troupe parades in Tainan? Do you know anything about temple troupes and where to find them? The exhibition, "On-cloud Pilgrimage · Digital Formation: fantastic temples troupes and where to find them", uses the records tracked by the GIS system of Academia Sinica in 2012. With the modern technologies of aerial shooting to record the dynamic troupe formations, motion capture models, 4D Views to film live actions of the temple troupes and generate an immersive theater of religious belief, the contemporary geographic characteristics of temple troupes in Tainan are well presented through the variations of formations as well as the spirit and vitality of temple troupes. We have invited Hsieh Yung-sheng, the visual designer who has participated in a palanquin team to design the space by bringing in announcement notice and banners for deity processions, posters, and patterns of Chinese characters. The visitors can be immersed in the role of scouting, leading the way, dispelling, exhibiting the power of deities, and safeguarding for deity processions and step into the world of Song Jiang Battle Array, White Crane Troupe, 12 Escorts for the Goddess of Childbirth, Golden Lion Troupe, and Musicians of the Imperial Court. Together, we shall explore these fantastic temple troupes and the places they come from.
