The partner finding service of the Interkulturelles Zentrum

You are looking for a partner school from Austria?

The partner finding service of the Interkulturelles Zentrum is an online programme, which enables Austrian and foreign schools around the world to find ways to enter into international school partnerships.

In Austria, the Interkulturelles Zentrum has been arranging, supporting and advising on international school partnerships for over 20 years. International school partnerships and school projects provide teachers and students a unique opportunity to extend the perspectives of their normal learning and working lives.

Partner-Finder:

Our new Partner Finder enables schools from Austria to search for schools from abroad to start an international school partnership. Austrian schools can search for partner schools according to certain criteria (region, type of school, age of the students, project topic).

If you would like to have a partner school of Austria please register your school: www.schoollinking.iz.or.at/partnerfinder

After your registration your school presentation will be presented on our website: www.schulpartnerschaften.at/schulsuche
Then Austrian schools can directly get in contact with you.

Website: www.schulpartnerschaften.at | www.schoollinking.iz.or.at

Our website provides a wide range of information, advice and support materials for the successful management and realization of international school partnerships.
