

文元國小英語校園導覽競賽基本介紹內容 - 【中年級組】

Ecological Pond

This is a peaceful green space designed for students to observe nature right inside the campus.

The main feature is a long, winding pond with a stone pathway running alongside the water, and there is a small wooden bridge, allowing students to walk around and explore the area.

There is a large stone standing upright. Carved into the stone are the Chinese words "生態池", which marks this spot as a center for nature study.

Behind the plants, there is a picture of a dog on the wall. It is in memory of the once very adorable campus pet dog, " Moli".

Overall, this area combines water, plants, and art to create a relaxing environment for the students.
