

文元國小英語校園導覽競賽基本介紹內容 - 【低年級組】

playgrounds

There are different zones for students to play, both outdoors and under shelter.

Outside, there is a spacious area covered in soft artificial grass. Here, students enjoy both standard swings and a "bird's nest" basket swing where children can sit comfortably together.

Located under the building to protect students from the sun and rain, there is a challenging adventure playground. This structure includes climbing nets, slides, and balance beams to help kids exercise.

These safe and colorful facilities provide a great environment for fun and physical activity.
